## What is categoryPRODSEARCH?

---

The module allows you to search for products in the category search easier. You can define any number of product attributes by which can be additionally filtered. You will also find a large product portfolio for the category matching products. At the same time the number of hits per page has increased.

## Features

---

- Any filtration of product attributes in the category management
- Number of hits per page in addition (200,500,1000,2000)

## License

---

The extension is available as a purchasable extension. For each Magento-installation, is pay license costs. Contain no matter how many store-views in a single installation. Please enter the URL you use to log into the backend system.

## Prerequisites

---

- The extension requires from the Magento-Version 1.4.1.1
- Adobe Flash is required (Backend).

## Installation

---

After buying an Extension, they will find in the "My Account" menu items "My Order" and "My Download article".

After the complete Order, they see their license-key and download-key for the direct loading of the extension from the Magento Version 1.5.2, within the order.

Since Version 1.5.0.1 you can easily install the extension in the Magento-Connect-Manager. Open the Manager and must enter the Installation-URL (see order) one.

## Magento Version from 1.5.0.1

---

Install New Extensions

- 1 Search for modules via [Magento Connect](#).
- 2 Paste extension key to install:

Extension dependencies

Channel	Package Name	Version	Status
snm-portal	snm_pdf+b79e986ee6d3e2ce4084e067c2cf863d	1.5.2 (stable)	Ready to install

By clicking on the button "Install" to access the extension dependencies (gray table). If you receive an error message, so it may be that you allow a sufficient connection server, the server from snm-portal is not reachable (please press the button several times on "install") or you have it already installed on another installation of the extension.

Finish the installation by clicking on the button "Proceed" and then the extension is installed. If you have difficulties, they can also install the extension as described in 1.4.2. for further installations, they should install their new Magento-Downloader.

## Magento Version before 1.5

---

Download the extension from their user area "Download my article." Unpack the archive and copy the files to their 1:1 Magento-Installation. This was to allow the "app folder" will be integrated into the "app folder" its installation. This will overwrite any files. Please delete it after copying the Magento-Cache and login again.

## Finishing Installation

---

Open the backend area of Magento the menu [System>Configuration>SNM-Portal> Category Product Search] and write under the License your key, these can be found in your order.

# Settings

Under the menu [System> Configuration> SNM-Portal> Category Product Search] you can make your required settings.

## Euro VAT
